

Creating & Maintaining a Personal Facebook Page

facebook

Why Should I Have a Facebook Page?

- Social media is not a fad. It is not going to go away.
- Facebook has more than 800 million **active** users.
- The majority of our students who use social media use Facebook the most and are on it multiple times per day.
- It is a great tool for keeping up with friends and family.
- If you become comfortable with Facebook, other social media mediums will be easier to figure out.

Types of Facebook Pages

- **Personal:** For individuals. Everyone needs a personal page to be on Facebook.
- **Business:** For businesses (Universities & departments fall into this).
- **Groups:** For like-minded or similar situation groups to come together in a more private setting such as planning a high school reunion.
